

DE GRENDEL SKOOL / SCHOOL

28 November 2019

Dear R and R

We thank you for your generous donation and support to our students. You have extended the hand of kindness that goes beyond words.

De Grendel School is a resource center for learners / students with special educational needs. Since 1974 De Grendel School has played an indispensable part in preparing students for "different" careers, increasingly as time has passed, financially this becomes a daunting task.

Apart from the academic learning areas much emphasis is placed in technical subjects and skills which open many doors to the working world, which otherwise would not be available to people with intellectual disabilities.

Currently there are no laws in place that compels youth from the age of 15 years to continue their education. As such, we as an institution and educators see so many people disembark from their educational journey and sadly given that these learners / students are already faced with intellectual disabilities and cognitive impediments as well as in some cases lack of financial support, they are more likely not to attain meaningful employment.

Therefore, it is important for us to acknowledge and applaud your willingness as a company to support these members youth.

Your donation goes beyond a child receiving a roof over their head and meal in their tummy, for some of these teenagers, your donation is the being of the rest of their lives, the turning point of feeling self-worth. There are no words that can express the value of a single bursary, not to mention the multi-fold by which you have supported our learners.

Both we the Governing Body, the Educators and individuals assisted by you, wish to thank you for your assistance and trust your business will grow from strength to strength.

Yours Respectfully,

B. Mac Donald

De Grendel School Governing Body
